

**AI in 2025**

## Collaborative Note Sharing & Group Brainstorming

 +

- Dan: Analyze trends in AI-driven industries
- Explore potential applications

 **New innovation possibilities?**

- Eva: Focus on ethics + policy
- Consider regulations

**Collect relevant data + stats**

Add a note... 

**AI in 2025**

- Emerging applications
- Ethics & regulation

**What do you think?**

 Article on AI trends

Dawn Lee added to the note

### Hook 1:

**"Ideas are better when they're shared—collaborate on notes in real-time, wherever you are."**

### Hook 2:

**"Group projects, team meetings, or creative sessions—bring your brains together in one smart space."**

### Hook 3:

**"Tired of messy group chats? Organize your team thoughts with live, AI-powered shared notes."**

### VOICEOVER SCRIPT (Narration Style | ~15 seconds):

**"Working with others just got easier. Create, edit, and brainstorm together—live. With Smart Noter, your whole team can share ideas, leave comments, and stay organized in one place."**
